Banbury Adventures Kayaking

Located along a calm stretch of the Snake River, [Banbury Adventures](#) is ideal for kayaking. In the surrounding area the Snake River Plain Aquifer releases it's crystal clear fresh water in the forms of waterfalls, springs, and box canyons, creating numerous sights and locations to explore by kayak. A short drive past Hagerman, the river transforms into surging whitewater, perfect for an afternoon adventure. We offer an assortment of kayak equipment rentals ranging from single and tandem flatwater kayaks to giant 6 person paddle boards, and even whitewater rafts and kayaks. Search below for your preferred destination or experience and we'll set you up with all the gear you'll need. Then, when your day is done, come relax in the hot springs.

Banbury Pond

Located just across the river from the launching station there is a clear freshwater pond that you can hike around or portage your kayak into. Pictured Below.

Difficulty: Easy. **Distance:** 0.4 miles round trip.

Round Trip Paddle Time: 20-30min.

Directions: From the launching ramp across the river and slightly downstream is the pond outflow. Dock or portage there.

Banbury Islands

A rather easy paddle is to go a quarter mile downstream and paddle around the islands (pictured left). Many birds and wildlife can be viewed from your kayak.

Blue Heart Springs

The name actually describes it quite well. Looking down you can see the soft bubbling blue sand that derives the name of [the spring](#). However, if you can muster the 56 degree water and dive down and grab a handful, you'll find that the sand is actually a completely different color!

Difficulty: Medium. **Distance:** 3 miles round trip.

Round Trip Paddle Time: 1.5-2 hours

Directions: Downstream the river makes a hard left turn, [Blue heart](#) is located on the northside corner of the turn. Refer to the map on the back.

The Mega Loop

If you want an all day paddle or shuttle you can visit each location described here and end at [Ritter Island State Park](#) and Thousand Springs Resort.

Difficulty: Hard **Distance:** 5 miles one way or 10 miles round trip.

Round Trip Paddle Time: One Way - 4 hours. Round Trip - 8 Hours.

Directions: Paddle downstream until you get to a big waterfall and power plant on the right. The waterfall and the island next to it are part of the state park.

Self Shuttle: There is a boat ramp at Thousand Springs Resort which you can use to exit the river and shuttle the rental boats 5 miles back to Banbury.

Box Canyon Hiking

Passing [Box Canyon](#) on a kayak does not do it justice. This is one of the largest fresh water springs in North America. The crystal clear 58 degree water cascades down the canyon until it flows into the Snake River near [Banbury Hot Springs](#). A well built trail drops into the canyon and follows it for nearly two miles until it ends at a large pond. Its the perfect afternoon little hike!
